## SKILLS & COMPETENCIES

- **JavaScript/TypeScript:** JavaScript, TypeScript, Node.js, React, Angular, NestJS, Nx, Next.js, Webpack, Module Federation, Single-SPA, AngularJS, Ionic, ExtJS, ReactJS, Sencha Architect
- **Java:** Java, Spring Boot, Kumuluz, Quarkus, iReport, JUnit, JBoss, WildFly
- **C#/.NET:** C#, .NET Core, Entity Framework (Code First), Web API, Microservices
- **PHP:** PHP, Phalcon, Zend Framework, Laravel, CodeIgniter, Drupal, Yii2
- **Flutter**
- **Android:** AOSP (Android Open Source Project), HIDL (HAL Interface Design Language), Kotlin, Java
- **DevOps and Monitoring Tools:** Kubernetes, Docker, Jenkins, ArgoCD, Rancher, Helm, InfluxDB, Prometheus, Grafana, Git, Nginx, minikube, SVN
- **Tools:** Git, Docker, Jenkins, Rancher, Helm, ArgoCD, Nginx, minikube, SVN, ExtJS, Sencha Architect, Redmine, InfluxDB, Prometheus, Grafana
- **Various Methodologies:** OKRs, Scrum, Kanban
- **Databases:** SQL Server, MySQL, PostgreSQL, MongoDB

## EDUCATION

### HIGH SCHOOL DIPLOMA

## PROFESSIONAL EXPERIENCE

### BLUECYBER SEGUROS

#### MAR/2024 - PRESENT

**Position:** Senior Fullstack Developer.

**Activities:** Leadership in the architecture of projects in JavaScript and C#, ensuring integration and efficiency of developed solutions. In the backend, I use .NET Core, Entity Framework (Code First), Web API, and PostgreSQL, implementing advanced microservices concepts. I use NestJS for the BFF (Backend for Frontend) layer, ensuring efficient and secure communication between services. On the frontend, I apply Next.js for SEO optimization and React for building dynamic and responsive interfaces. For monorepo management, I use NX, facilitating code organization and maintenance.

### NTT DATA BRASIL

#### JUL/2023 - PRESENT

**Position:** Customer Service Specialist (CSS).

**Activities:** Participating in Android/iOS projects for RD, contributing to the Drogasil and Droga Raia apps. Applying clean code, clean architecture, and SOLID principles, elevating my profile to a senior professional.

### GS3 TECNOLOGIA

#### DEC/2023 - MAR/2024

**Position:** Flutter Developer.

**Activities:** Contributing to the transition of the BRB credit card app from Ionic to Flutter. This temporary experience allowed me to deepen my knowledge in Flutter and deliver a robust product.

#### JUN/2022 - MAY/2023

**Position:** Frontend Developer.

**Activities:** Architecture of Micro Frontends using Module Federation from Webpack in Angular projects (versions 12, 13, and 14).

## PIXEON

**FEB/2021 - JUL/2023**

**Position:** Systems Analyst.

**Activities:** Leading and developing notable projects such as Xviewer, a web viewer for X-ray exams. I used React, Styled Components, Java, Spring Boot, and technologies like NX, React + RxJS, and CBOR for efficient communication. I gained experience in BDD with Python.

## CAPGEMINI BRASÍLIA

**MAR/2020 - FEB/2021**

**Position:** Mid-level Systems Analyst.

**Activities:** Developing new functionalities using Java (Kumuluz, Quarkus), Node.js, and React. I used DevOps tools like Kubernetes, Docker, Jenkins, and ArgoCD, as well as monitoring tools like InfluxDB, Prometheus, and Grafana.

## SONDA

**NOV/2019 - MAR/2020**

**Position:** SW 4 Developer.

**Activities:** Developing features and maintaining legacy systems using Java, Angular (6, 7, 9), PHP, Laravel, and Drupal 8.

## CONNECT DF

**AUG/2019 - NOV/2019**

**Position:** Java Developer.

**Activities:** Providing services for SEBRAE, developing systems with Java Spring, Angular 8, ReactJS, and continuous integration tools like Docker, Jenkins, and Rancher.

## FAROS EDUCACIONAL / ICOMUNICAÇÃO

**FEB/2018 - AUG/2019**

**Position:** Mid-level Developer.

**Activities:** Developing systems using C# (SGUS), Ruby (Redmine), Angular V2+, Node.js + Ionic, PHP (Drupal 7 and 8, Moodle), and ExtJS. I worked on various projects, including service tracks and transparency systems.

## OUTPUT - PAX VIDA

**JAN/2019 - MAY/2019**

**Position:** AOSP (Android Open Source Project) Developer.

**Activities:** Starting the Android project and modifying the template at the HIDL (HAL Interface Design Language) layer.

## INSERT WEB

**MAY/2017 - FEB/2018**

**Position:** Web Developer.

**Activities:** Developing systems with PHP (CodeIgniter) and Ionic.

## INSERT WEB

**MAY/2017 - FEB/2018**

**Position:** Web Developer.

**Activities:** Developing systems with PHP (CodeIgniter) and Ionic.

## POLISYS INFORMÁTICA

**AUG/2017 - OCT/2017**

**Position:** Java Trainee Programmer.

**Activities:** Developing systems with Spring and AngularJS.

## CNM - CONFEDERAÇÃO NACIONAL DE MUNICÍPIOS

**NOV/2016 - AUG/2017**

**Position:** PHP Programmer.

**Activities:** Developing systems with CodeIgniter, Laravel, and Angular 2+, and hybrid applications with Ionic. I created geoprocessing presentations with D3.js.

## MICROMED BIOTECNOLOGIA LTDA.

**MAY/2015 - NOV/2016**

**Position:** PHP Programmer.

**Activities:** Updating intranet systems from Access to PHP (Phalcon 2.0) and integrating AdvPL services from Protheus.

## LANGUAGES

- **English:** Intermediate
- **Spanish:** Basic
- **Portuguese:** Native
